Cat / Kitten Information

COLOR PATTERN	GENDER
DATE OF BIRTH	SALE PRICE
	\$
SIRE	DAME

BY SIGNING, BUYER AGREES TO THE FOLLOWING CONDITIONS:

1. **Kitten/cat** is purchased as
 PET (Altering Required) SHOW (Altering required) BREEDER

2. Breeder guarantees that the cat being sold is a purebred Ragdoll cat, with a pedigree and is eligible for registration with The International Cat Association (T.I.C.A.).

3. The kitten has been vaccinated by my veterinarian on _____ with a FVRCP modified live virus vaccine. This vaccine will include Feline Viral

Rhinotracheitis, Calicivirus, and Panleukopenia. This is the **1st vaccine administered for your baby**. A total of **3 FVRCP** vaccines are required for a new kitten, administered every **3 to 4 weeks until all 3 FVRCP have been given**. Afterward, a yearly FVRCP vaccine is required.

4. This kitten is guaranteed negative for Feline Aids (FIV) and Leukemia FeLV) at the time the kitten leaves the cattery. He/she is release by my veterinarian in good general health.
5. It is also recommended that you do not allow your Ragdoll kitten to be given **a Feline Leukemia Vaccination** since it is controversial and poses too many risks. (less is more). The entire health guarantees are **null and void if your Ragdoll is given the Feline Leukemia Vaccine**. Each state has its own laws governing the administration of the rabies vaccine. I recommend getting kittens vaccinated after six months of age. The Breeder does not warranty the above cat/kitten from any adverse reactions against future vaccinations.
6. The kitten will be an indoor cat and not to be taken to parks or places where other animals roam even if on a leash. This makes your cat prone to catch disease, fleas and/or ticks.
7. This kitten/cat is not to be resold unless given permission by the breeder.
8. If this kitten should die of a hereditary defect within one year of its birth date, he/she will be replaced after proof is in the form of a necropsy. No veterinary bills will be refunded.
9. The cat is not to be declawed unless absolutely necessary.
10. The Buyer agrees to have the kitten spayed/neutered by 6 months of age. The Breeder agrees to provide Buyer with a T.I.C.A registration form for the after he/she is altered by six months of age upon written certification from a licensed veterinarian is sent to the Breeder. This certification must provide the breed of cat, as well as the name, address and telephone number of the veterinarian for verification of altering.

***Deposits are non-refundable and final payment is due in cash or check (14 days before delivery).**

***All delivery, shipping, and related expenses are responsibility of the Buyer.**
